Details:

I am a very open minded, friendly, enthusiastic traveller from Germany. I have taught English in China to children aged 4 - 12.

So, if you need help with your homework or simply love to refresh or learn a new language, you won't be disappointed.

During my studies in Australia, I have also studied English and Mathematics in preparation for my graduate diploma in Education. I am therefore perfectly suitable to help out with assignments and tutor math and english to high school students.

During my studies I have tutored high school students in math (calculus) as well and helped improve their knowledge and grades in preparation for university.

If you need help in math, german, english or even communication studies, don't hesitate to contact me

You won't regret it!

Cheerio,

Judith
