Niveau:

Mathematics, French: Intermediate; German, English: Advanced

Details:

I am an 18-year-old girl from Germany who lives as a language tutor in a family in the surroundings of Madrid, teaching them English, German and French

Although German is my native language, I finished my education in England and would therefore consider myself as fluent in English. I also have a high level of French because I have been studying it for four years and achieved the highest grade in the final exam.

I have got a lot of experience in teaching children, not only with my family here, but also with pupils in Germany and England

I am a very patient and friendly tutor and I would be very happy to hear from you!
